Charlotte – South data center

Charlotte, North Carolina

Our Charlotte - South data center complex features N+1 power and cooling redundancy and is equipped to provide superior support for your IT transformation journey.

With a cloud node on-site, we can help you optimize your infrastructure with tailored hybrid IT solutions.

Additionally, our Charlotte - South data center is compliant with several industry and regulatory standards. We are among a select few in the industry that can provide a certified, protected environment to support compliance with PCI DSS.

The best feature of our data center is the people who are on-site 24/7 to protect, monitor and support your infrastructure. Our local engineers and service staff are proven experts in managing and optimizing infrastructure, and we treat your environment as if it was our own.

Quick facts

- 66,666-square-foot data center footprint

- 2.36 MW critical load UPS capacity; N+1 UPS redundancy

- N+1 cooling redundancy

- 100% SLA on power, network and bandwidth

- 100 Gbps network backbone, scalable to 400 Gbps

- 4-zone security access

FLEXENTIAL

# Facility specifications

Power & cooling

- N+1 UPS redundancy
- 2.36 MW critical load UPS capacity
- 150 W/SF power density
- N+1 cooling redundancy
- Hot/cold aisle configuration
- 100% power SLA
- 1.55 PUE rating

24/7 security

- Round-the-clock security and technical staff
- Dual-factor authentication access
- Biometric scanners
- 4-zone security access
- Monitored security cameras and intercom system
- Cage security cameras available
