

Powering IT performance in Music City

Hit the right IT note with Nashville's connectivity and Flexential trusted solutions.

Nashville, the heart of Music City, is more than a cultural hub—it's a thriving center for IT innovation. With a diverse economy, low costs, and robust connectivity, Nashville offers businesses the ideal environment to optimize IT performance and scale with Flexential trusted infrastructure.

Nashville's strategic advantages

Nashville is a rapidly growing hub for IT innovation and business development, ranked #15 on Forbes' list of Best Places for Businesses and Careers. Home to over two million people and more than 52,000 businesses, the city combines a diverse economy, affordable power, and low labor costs to attract enterprises from various industries.

Its central location within a day's drive of 75% of the U.S. population ensures low-latency connectivity, making it a strategic choice for IT operations. Tennessee's business-friendly environment includes no state income tax and energy efficiency incentives, creating an attractive landscape for growth.

"We truly are in a business where seconds matter. Flexential operates reliable data centers that allow us to position our infrastructure close to customers, enabling us to dispatch medical teams quickly and save lives."

—Todd Endicott, Manager of IT Implementations, [Priority Ambulance](#)

Customer Success: Priority Ambulance

Priority Ambulance partnered with Flexential to ensure dependable IT infrastructure for its life-saving operations. By leveraging the Flexential Nashville–Franklin data center and geo-diverse network, the company achieved ultra-low latency and seamless communication to support its emergency services.

- **Low-latency:** Reduced speeds from 70ms to 11-12ms for faster aid dispatch
- **Reliable uptime:** 100% SLA ensures uninterrupted critical operations.
- **Disaster recovery:** Geo-diverse DRaaS with <10ms latency ensures resiliency.
- **Scalability:** FlexAnywhere™ supports hybrid IT growth

Connect to a superior national platform

At Flexential, we understand that choosing the right data center location is about more than just geography—it’s about finding the right partner who can support your growth.

Reliable, low-latency networks and interconnections are increasingly critical to Nashville to support multi-cloud deployments, distributed and edge workloads, and a growing reliance on digital engagements. The three Flexential Nashville locations offer 174,000+ sq. ft. and up to 80+ kW per cabinet to support high-density needs readily available for cost-effective scalability. The facilities are also compliant with multiple industry and regulatory standards to ensure your operational and data integrity.

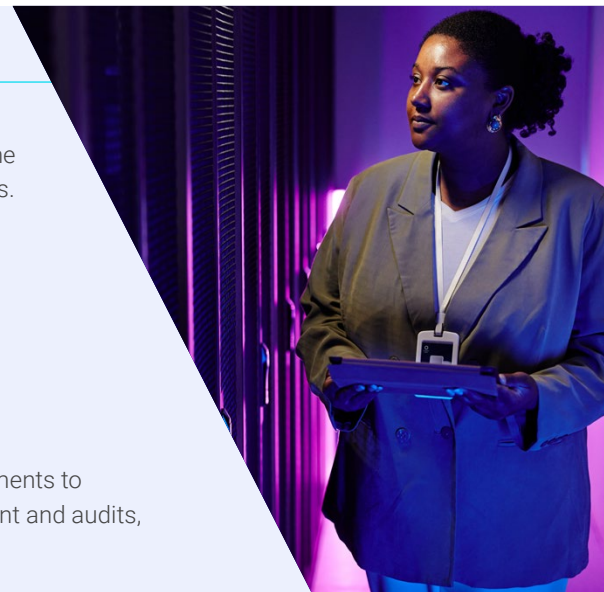

Our highly connected platform integrates our private 100 Gbps network backbone and diverse connectivity options to create a connectivity hub. Connect reliably and securely to data centers, the Internet, leading cloud service providers, and a rich ecosystem of carriers, all while optimizing end-user performance and reducing single points of failure on the network. Additionally, our unified fabric offers on-demand provisioning of connectivity services through a single port.

Tailored colocation solutions in Nashville

Flexential has played an integral role in middle Tennessee’s thriving economy for many years. As one of the largest multi-tenant data center operators in the state, Flexential has the capacity to accommodate large IT environments without space or compliance limitations.

- Improved reliability on **public cloud connections**
- Connections to a superior network of **40+ data centers across the U.S.**
- A **strategic partner** for improving response times
- Security and technical **staff on-site 24/7**
- Redundant, automatically rerouted connections ranging from **10 Mbps to 40 Gbps**
- **100 Gbps network backbone**, scalable to 400 Gbps

Plus, **Flexential Professional Services** will partner with organizations’ internal IT departments to solve complex challenges including migration, security and risk management, assessment and audits, performance and network architecture support and remote hands.
