# IT project management

Bench strength when you need it most

When program missteps and delays are not an option, forward-thinking organizations mobilize the right resources to achieve desired outcomes.

A lack of dedicated focus on milestone achievements can trigger missed deadlines. Unforeseen technical glitches can cause a solution to fall short of user expectations. Even minor implementation gaps can spawn lengthy reworks or workarounds to defuse issues, resulting in material financial and productivity losses.
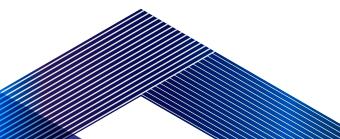

Features

- Experts in Agile and traditional Project Management Institute methodologies

- Cost-effective PM support, with costs less than 5% of overall budget

- Diverse staffing options to meet specific business challenges

- Engagements for one-time-only or limited-duration initiatives

Benefits

- Clarity of project scope, timing and roles

- Decreased project time and expense

- Reallocation of internal resources on strategic initiatives

- Proactive risk monitoring and contingency planning

- Rigorous, best-practice project management

- Knowledge transfer for ongoing production support

FLEXENTIAL

Guiding projects over the finish line

We offer a customized approach to outsourced project management to help push your organization's projects over the finish line, all while adhering to your budget parameters.

Whether you're implementing new technical solutions, migrating from one platform to another or conducting security audits and assessments, our certified and skilled project managers can provide the technical support and project leadership you need on an as-needed basis.

Flexible engagement options

Flexential project management consultants are available on a one- or limited-time basis. We'll align projects to your organization's overall vision, mission, priorities, goals and culture. We can come in mid-stream to salvage failing projects or lead initiatives from start to finish to help ensure your critical initiatives stay on track and on budget.

Flexential helps organizations optimize IT transformation while simultaneously balancing cost, scalability, compliance and security. With a focus on building trusted relationships, providing valuable support and delivering tailored solutions and reliable performance, Flexential delivers colocation, connectivity, cloud, managed solutions and professional services to 4,200 customers across the U.S. and Canada.
